

Professor Sospeter Muhongo, a Tanzanian, is the founding and the current Regional Director of the ICSU (International Council for Science) Regional Office for Africa. He is the Chair of the Science Programme Committee (SPC) of the UN-proclaimed International Year of Planet Earth (IYPE). Prof Muhongo is the Chairperson of the Steering Committee of the Scientific, Technical and Research Commission of the African Union (AU-STRC). He is the Chairperson of the UNESCO/IUGS/IGCP Scientific Board and Vice President of the Commission of the Geological Map of the World (CGMW). Prof Muhongo is a Full Professor of Geology, a Chartered Geologist (UK) and the first recipient (2004) of the Robert Shackleton Award for Outstanding Research in the Precambrian Geology of Africa. In

2006 Prof Muhongo won the prestigious National Award for Outstanding Research in S&T in Tanzania. The Geological Society of South Africa conferred the prestigious "Honours Award" upon Prof Muhongo for his meritorious contribution to the Earth Science profession in 2007. He is an Honorary Professor of Geology at the University of Pretoria (South Africa). He was the President of the Geological Society of Africa (1995-2001); and Head of Department of Geology of the University of Dar Es Salaam, Tanzania (1997-2000). He obtained his BSc (Hons) geology degree from the University of Dar Es Salaam in 1979 and undertook postgraduate studies at the Universities of Göttingen (MSc research) and TU Berlin (Dr.rer.nat.) in Germany. His outstanding performance during his BSc studies made him win the Vice-Chancellor's Prize (1977) and the Gondwana Prize (1979) at the University of Dar Es Salaam. Prof Muhongo is a Fellow and a Chartered Geologist of the Geological Society of London (*FGS, CGeol*); a Honorary Research Fellow of the Chinese Academy of Geological Sciences (*FCA GS*); a Fellow of the African Academy of Sciences (*FAAS*), a Fellow of the Geological Society of Africa (*FGSA f*); a Fellow of the Academy of Sciences for the Developing World (*FTWAS*); a Fellow of the Gondwana Institute for Geology and Environment (*FGIGE*); and a Fellow of the Academy of Science of South Africa (*FASSA f*). Prof Muhongo is a recognized European Geologist (*EurGeol*). He is a member of other numerous high-standing and learned professional societies. He is the author or co-author of over 100 scientific articles and technical papers including articles published in very learned international journals of high impact factors. He has co-authored the publication of large-scale geological maps of Africa, East Africa and Tanzania. He has been invited to give more than 200 keynote speeches in international conferences held in Africa, America, Asia and Europe. Prof Muhongo has co-organized over 50 international scientific and policy conferences, including those of UNESCO and the African Union (AU), in Africa, Asia and Europe. He is the Editor-in Chief of the Journal of African Earth Sciences (Elsevier); and an Associate Editor of the Precambrian Research Journal (Elsevier). Prof Muhongo has been the Chairman of the Board of Directors of the State Mining Corporation (STAMICO) of Tanzania since 1999. He has also aided in a long list of international scientific programmes including the UN-proclaimed International Year of the Planet Earth (IYPE); the IGOS Geohazards Peer Review Team; the IGCP International Advisory Group of Experts on Geological Heritage; the International Commission for Earth Science in Africa (ICESA); the R&D Advisory Committee on Management of Natural Resources Research (COSTECH, Tanzania); and the International Association for Gondwana Research. Prof Muhongo is on TWAS's Membership Selection Committee for Earth Sciences category, and is a Member of the Advisory Board of TWAS/TWNSO/UNDP-SSC on Disaster Mitigation in Small Island Developing States (SIDS). He is a Member of the American Geophysical Union's (AGU) New International Award Committee for the 2006-2008 Term. Prof Muhongo is a member of the Nominating Committee, for the Executive Committee, of the International Union of Geological Sciences (IUGS). He is an ex-officio member of the Pan-African Committee (PACOM) for START (global change System for Analysis, Research and Training), and is a member of the Southern African Regional Universities Association (SARUA) S&T Advisory Group. Prof Muhongo has established excellent and reliable contacts with senior scholars, business executives, politicians and government officials throughout the world. He is immensely mentoring young scientists around the world and has developed special interest in the application of science, research, technology and innovation for the sustainable socio-economic development of the global society. His contacts are: s.muhongo@icsu-africa.org and www.icsu-africa.org.
